Silvia will also be hosting a "Modern Energy Art Exhibition" during the conference, more details of that can be found on Page 8.

## **Fearless Public Speaking with EMO & EFT**

*~ Beth Fitzgerald*

How can we deliver a powerful speech about energy when we are coming from a place of fear? Ironically, maybe that is precisely the place we should come from. Beth will approach the fear of public speaking from three spaces:

1. Breaking down fear (mind,body,energy)
2. Applying EMO Energy in Motion, EFT, and future aspect work.
3. Time-tested tips from her 20+ years of public speaking experience.

We are all passionate about energy, and we want to share our knowledge so we can help others. Therefore, to change the world, we must overcome this fear so we deliver powerful talks about energy awareness.

In this workshop you will leave with a deeper understanding of the fear behind public speaking, We will do real-time exercises in EMO, EFT, and Future Aspect work so you have practical hands-on applications, Finally, you will get easy to apply public speaking tips that will make your next presentation powerful, engaging, and FUN!

*~ Beth Fitzgerald is an Energy EFT Master Practitioner, certified life coach, certified John Maxwell Coach, speaker, and trainer. Beth's previous background was on Wall Street. She graduated from Rutgers University in 1987, with majors in Economics and English.*

## **Angel EFT & Proxy Tapping: Engaging Your Angelic Power Team ~ Susan Browne**

Do you love helping other people, and sometimes get frustrated as they don't seem to want to help themselves?

- Do you get overwhelmed by fear and negativity in the world?
- Would you love to feel you are really making a difference?

In this inspiring talk, learn advanced techniques to involve the angels in realising your potential as an energist and healer. Enjoy engaging your own Angelic Power Team and becoming an authentic help to others, and in the world generally. Learn when and how to delegate to the angels when you are taking on things that are too much for you to carry.

*~ Susan Browne, author of "Angel EFT" (DragonRising, 2016), helps people to connect with the angels and step into their greatest self. Based in Ireland, Susan is a GoE Trainer and delivers Angel EFT workshops and 1:1's internationally.*

## **The Energy of Attraction ~ Alex Kent**

This is a talk on the energy interplay between couples in this most primal and intimate of dances. Seduction is a game for two, yet the journey between first contact and sex is often not the well-lubricated interaction both players would wish it to be.

For the majority, approach anxiety, self doubt, low confidence, unpracticed social skills and negative thoughts are the reason why finding love is often referred to as "getting lucky".

Yet, as energists, we have unique tools for helping people succeed all the way from thinking about meeting someone, to the first "Hello", to the bedroom and beyond. These approaches are the antithesis to online dating, Dutch courage, staying up late, low confidence and feeling unlucky in love.

This presentation is a must for professional energy coaches seeking to help their clients awaken and heighten their first circuitry, as well as anyone interested in gaining those benefits for themselves. You'll discover new ideas for gaining inner confidence and learn breakthrough approaches on meeting, attracting and enchanting whomever takes your fancy.

*~ Alex Kent is the CEO of The Guild of Energists and is responsible the day-to-day operations and software development for our websites. He joined The GoE in 2002 and has been an integral part of our success these past two decades.*

## **Your Happiness Matters ~ Ferris Jay**

Does your happiness matter to you? Does it matter to your clients? Is it easy for you to be happy?

Too often our happiness is linked to circumstance, yet feeling good, being happy and living at +10 are our natural energy states, and can be achieved no matter what is happening in our lives.

In this presentation Ferris Jay explores how we can best tune into happiness, and raise our own and our clients happiness levels, regardless of current circumstance. She'll be sharing top tips from her journey towards living life at +10, including working with Modern Stress Management and Energy EFT.

*~ Ferris Jay is an GoE Trainer, Practitioner and Uplifter from Ireland. For the last 16 years she has been helping people and animals to thrive and overcome adversity. Known as 'The Thought Gardener' she helps people cultivate positive thoughts, habits and energy flow.*

## **Marketing & Promoting Yourself ~ Jimmy Petrucci**

Self promotion is an important element your journey as a professional. People who thrive in business are the ones who naturally market themselves to the right people, in the right way. You can be the best practitioner or energist in your field, although if you do not market yourself in the right way, you will not attract business.

- Who's your audience?
- What are you trying to sell?
- What are you trying to achieve?
- How can you be more proactive?

Promoting yourself online, writing press releases, useful marketing tools, networking and making a good impression is all key. This talk will help you achieve these goals and much more.

*~ Jimmy Petrucci is a world-renowned performance coach and NLP, CBT and Hypnotherapy expert. For over 15 years he has worked, and continues to work with many top organisations, businesses and associations, helping them achieve peak performance in all aspects of their lives.*

## **Being Authentically You In Your Energy Business**

*~ Barbara Saph*

This talk focuses on being yourself energetically, acting with authenticity and integrity to be your own best person, projecting that authentic energy self into your business and with your clients to achieve more success for yourself and those clients.

You'll learn how to energetically assess outside influences and trends so you can select and filter what will be the most benefit for you and your business.

In addition you'll learn how to set unique energetically correct goals for you and your business entity, however large or small it is, and also marketing it authentically, with The SUE Scale, so that it works for you even if it doesn't for anyone else.

*~ Barbara Saph is an experienced GoE Trainer, Hypnotist, Intuitive Personal Coach, Mentor and the tutor of the GoE's Energy Healing For Animals course. Barbara helps many people find their passions, power and purpose in life.*

**GoE Trainers & popular speakers Sandra Hillawi, Jorge Vence, Susan Kennard, Terry Lynch, Lorna Firth, Jacqueline Besseling & Ilka Wandel are also confirmed for the GoE Energy Conference 2017, with more presenters to be added soon!**

## Conference Host Town - Eastbourne

Eastbourne is a beautiful seaside town on the southern coast of the UK and is situated approximately 17 miles East of Brighton and 65 miles south of London.

Within walking distance of the venue is the South-Downs National Park and also Beachy Head which is the highest chalk sea cliff in Great Britain and a designated area of outstanding natural beauty. This sheltered position contributes to Eastbourne's title of sunniest place in Great Britain – perfect for the GoE's annual energy gathering.

Also within a few hundred yards of The View Hotel is Eastbourne's famous pier and town centre, with its wide selection of restaurants, bars, cafés and shops.

Eastbourne was relatively slow to transform itself into a seaside resort. When King George III sent his children to Sea Houses in 1780, it was still just a busy fishing village. It's thanks to the arrival of the railway in 1849 that Eastbourne owes much of its popularity.

Today, Eastbourne remains a traditional holiday town. In more recent times, it has also diversified to become a busy conference and business town, including hosting large events including the Aegon International tennis tournament and Airbourne, the world's biggest free seafront air show.
